

How can ARAPro OEM Airbags Boost My Shop's Profit & Raise Customer Satisfaction?

- 1) **ARAPro OEM** Airbags are a strategic solution for your collision repair business
- 2) Saving the job, means more throughput, more parts and labor sold and ultimately, more profit
- 3) More jobs through the shop helps spread your overhead burden
- 4) **ARAPro** airbags are OEM parts, designed and manufactured by the same suppliers as new parts from the dealer
- 5) ARA Pro OEM airbags comply with the ARA Airbag Protocol and come with a Certificate of Inspection on each part
- 6) ARAPro Airbags are a part replacement alternative, not a complete system repair kit. The ECU/ECM is not part of the **ARAPro** program.

ARAPro OEM Airbags
The Quality Alternative

ARAPro OEM Airbags

Saving Totals; Raising Shop Volume, Overall Profit & Customer Satisfaction

ARAPro; The Professional's Choice

Choose ARAPro OEM Airbags and:

- Save the Car From Being a Total Loss!
- Meet Standards
- Know you are using 100% Original Equipment parts

Are you about to lose a job because of totaling? Is the high cost of replacing the airbag system at least partly to blame? We can help you lower the cost of repair and save the car. Introducing **ARAPro OEM**

Airbags, the only inspected, standards compliant, previously installed OEM airbag module on the market today. Cost savings may exceed 50%¹

Alternative Airbag Part Solutions

The cost of replacing airbags after a crash is a huge contributing factor toward causing a repairable vehicle to be declared a total loss. Everyone knows a car's value declines as it ages. What is not so well known, is the price of replacement parts does not fall in line with the car's value. This is especially true for airbags. The price of new replacement airbags is a significant contributor to total loss declarations.

NEW ALTERNATIVES

ARAPro OEM

Airbags are a new option for body shops seeking to lower the cost of repairing cars, and avoiding a total.

ARAPro OEM

Airbags were introduced into the market to address the problem of repairable cars being totaled out because of high priced dealer supplier new airbags.

The ARAPro OEM

Airbag can reduce the cost of the repair, and deliver the quality you require. Introduce this exciting new option to your customer today!

ARAPro OEM AIRBAGS

The **ARAPro** brand is reserved for OEM airbag modules which have been carefully extracted from vehicles by certified car recyclers who have trained their technicians in accordance with the terms of the ARA Protocol- a training program of ARA Product Services LLC. Each airbag is carefully inspected by a trained *Certified Airbag Technician*. Only after thorough inspection and entry into our database can it be designated as an **ARAPro OEM airbag**.

The inspection procedure complies with the ARA Protocol, the accepted international standard for processing, handling, inspecting and shipping, non deployed OEM airbags.

PEACE OF MIND

Because the **ARAPro OEM Airbag** is original equipment, each unit was designed and manufactured by the same company that supplied the original factory installed airbag on the car. Our rigorous standards based inspection ensures **ARAPro OEM** airbags deliver the peace of mind that only OEM parts can offer.

Follow these 5 easy steps to purchase an **ARAPro Airbag**

1) Visit us on the web:

AirbagResources.com

2) Click on the **Part Search** tab

3) Enter the Year, Make and Model of your car in the drop down menu. Press enter.

4) Select from the list of **ARAPro** dealers listing available inventory

5) Call the toll free number listed, pay using your credit card, and the dealer will ship the **ARAPro OEM** Airbag directly to you.

1. Savings depend on year, make and model
